Selective Corporate Internship Program

Enlighten. Employ. Empower.

SCIP's Business Summit and High School Exposition Hosted by Microsoft Highlights

Selective Corporate Internship Program is a 501 (c)(3) tax exempt organization

Event Overview

On February 19th, JPMorgan Chase & Co. Adelante Tri-State partnered with Selective Corporate Internship Program (SCIP) and Microsoft to provide over 150 students from the Tri-State area the opportunity to grow professionally and network at the "Owning Your Brilliance Business Summit & High School Exposition."

The event took place at Microsoft's New York Technology Campus in Times Square and included a number of Science, Technology, Engineering and Math (STEM) workshops, seminars, panel discussions, and networking focused on business and technology career paths. Guest speakers included professionals from Microsoft, JPMorgan Chase & Co., and the Selective Corporate Internship Program (SCIP).

JPMorgan Chase & Co. employees had the opportunity to coach and mentor minority and underserved high school community students. Employees provided students with resume, social media, and other professional development tips to help them succeed. The students actively participated with the speakers, met with college recruiters, and engaged with corporate representatives to learn more about career paths in business and technology. Alex Rezman a senior at Greenwich High School noted, "I really liked to listen and learn from the speakers." Andre Waldek, a senior at Greenwich High School as well, mentioned, "It got me really thinking about life after high school, and even life after college."
